

FINAL TASK

BUILDING A MORE INCLUSIVE WORLD

Get ready for a 4 minute presentation in pairs

« Imagine a technological device to make life easier for disabled people , you will show other inventors your new device is meant to help create a more inclusive world»

Requirements :

- Show + explain the needs / the target users / your goal(s)
- Describe and explain briefly how your device works
- Show a drawing or a sketch of the device you have imagined.
- Conclude on the advantages and possible improvements

Pay attention to your pronunciation and use the vocabulary studied in class. Make it clear and dynamic.
